Study Guide • \$9.95

Quizzing's goal is to help teens know God better through his Word; our Study Guide was written to help them do just that—to get the Word past their minds and into their hearts. Included are daily devotionals over each chapter, step-by-step daily study plans, and a daily prayer journal.

A LARGE collection of 2500 questions with marked prejump points. These questions are integrated into the Study Guide's daily study plans. Get one for each quizzer and coach.

*We have questions for most denominations.
Check our website, or call for availability.*

Review Activities • \$14.95

Ten activities for each chapter, including crosswords, fill-in-the-blank, cryptograms, matching, event sequencing, keyword study, and more. This product may be duplicated for each member of your team, or get one for each quizzer for as little as \$4.45 each.

Listening CDs • \$9.95

These audio CDs, a word-for-word dramatic reading of JOHN, are really popular with quizzers and coaches. Because remembering facts is easier when we engage as many senses as possible, these CDs are a great aid in retention. Each chapter is on its own track.

The QuizMaster™ software is one of our most popular products and contains the largest collection of questions you will find anywhere. Quizzers will appreciate all of the study options, and coaches will find it invaluable in preparing for practices. Give it a try by downloading a demo from our website.

MatchMaker Quiz Equipment

MatchMaker USB Console™

We started with the best features in our competitors' products and then went way beyond in the design of our MatchMaker Console. Compare features and see why the future of quiz equipment is MatchMaker!

Use With A Computer or Stand-Alone. When connected to a computer, our NextGEN™ software does computer scoring. When a computer is not handy, the Console™ operates on a rechargeable battery. No other product gives you this flexibility.

Many pad & switch options. We offer pad, handheld, and tabletop options, as well as connections to existing pads and benches. Every denomination is supported.

Flexible Configuration. The interactive LCD makes configuration changes easy. Change denomination style or seat arrangement, test switches, configure clocks, adjust volume and power modes, and more.

Three Power Modes. Draws its power from either the internal rechargeable battery, a wall outlet, or an attached computer.

Auto-Rewire™ Technology. Bypasses bad pads and switches.

Multiple Timers. Context-sensitive timers for jumps, answers, and timeouts.

Multi-Tone Buzzer. May be configured with a different tone for each team to allow you to audibly distinguish between teams.

Obsolescence Protection. As new features become available, the Console™ can automatically reprogram itself when using the NextGEN™ computer software.

MatchMaker USB Interface™

Our USB Interface™ is an inexpensive option for the budget-minded. Combined with our NextGEN™ software, you have a very inexpensive way to add a lot of excitement to your quiz matches.

Just like our Console™, the Interface™ controls up to four teams of five. But unlike our Console™, the Interface™ must be attached to a computer. This makes the Interface™ most appropriate for districts, and the Console™ a better choice for local churches.
